+PALLET+

Pallets Rival, are manufactured for organization, transportation and storage in warehouses either on the floor or by using racks. They are fabricated using a single piece by rotational molding, **100% recyclable, with high impact resistance, antibacterial, stackable and easy to clean.**

This type of pallets are designed to be used by every industry and commerce that needs to manage the merchandise. The products adapt to any type of forklift, even if they are motorized or manual.

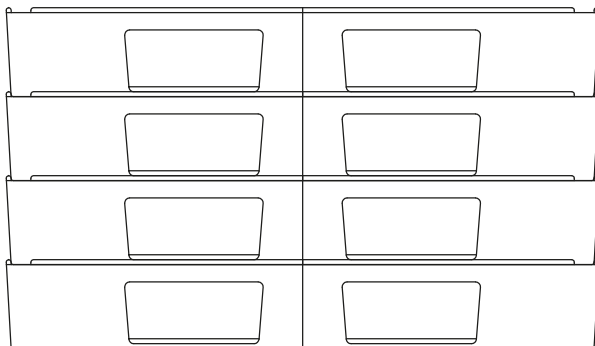

- Two types of models / designs
- Three different measures
- Variety of colors according to customers requirements
- Pallets can be customized adapting to the brand of the company
